## **Allowance Transfer**

This form is required to record a transfer of allowances under the New Hampshire NOx Budget Program from one account to another in the New Hampshire Emission and Allowance Tracking System (NHEATS). Upon receipt of a completed allowance transfer form, EPA will move the requested allowances from the transferor's account to the transferee's account. The Authorized Account Representative (AAR) should notify all persons who have an ownership interest in the allowances held in an account every time he or she makes a NH NOx Budget Program submittal.

# STEP 1 Enter account information about the transferor (in whose account the allowances currently reside).

Transferor:

STEP 3
Complete Step 4. The transferor AAR should read the certification, print name, and sign and date.

I am authorized to make this submission on behalf of the owners and operators of the budget source (or in the case of general accounts, the parties with an ownership interest in the allowances held in the account) and I hereby certify under penalty of law, that I have personally examined the foregoing and am familiar with the information contained in this document and all attachments, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including possible fines and imprisonment.

STEP 4
List the allowances to
be transferred by serial
number (see example).

You may specify single allowances or a series of allowances. In the "Total" column, enter the total number of allowances to be transferred. Enter each separate series or series with a different use date on a separate line.

EPA will not transfer allowances unless the allowances are in the transferor's account at the time EPA processes this request

Further Details:
Enter the Start Number and End Number in the appropriate columns; EPA recommends that you select a start number or end number that represents the start or the end of a pre-existing series in the transferor's account, so that series of allowances are not segregated unnecessarily as would occur if you chose an intermediate start or end number.

column. Verify the
accuracy of your entries
by using one of the
following simple
equations:
Start Number =
End Number - Total + 1
or
End Number =
Start Number + Total - 1

Enter the number of allowances to be transferred in the "Total"
